

Weddings with Ben and Vee

ABOUT

-FOUR VENDORS- ONE POINT OF CONTACT

You read right! We offer not just live music for your special day, but you can choose to add on:

Vee as your celebrant

Ben as your DJ

Vee as your MC

Ben as your flower girl

(wouldn't he look adorable with his little petal basket).

All jokes aside...we offer set and custom packages so you can pick and choose what services you would like for your day...and have 1 point of contact for up to 4 different vendors!

We love it when our couples choose to have us be a part of these incredibly important aspects of their day. By the end of each wedding, we feel like a friend or part of the family and that we're there to celebrate alongside you, not just work at your wedding.

We want to work together with YOU to customise and create a personalised package that is exactly what you've been wanting for YOUR day!

OUR ROLES

Vee

is a bubbly and confident person who is eager to be a part of your wedding day.

As part of Ben and Vee she plays the role of **celebrant and MC**. You can also find her singing and playing alongside Ben during your canapé hour, or during the earlier parts of the reception.

As our accounts queen, she is the main person you will be in contact with during the planning process-asking you the important questions to make your day a total success!

Ben

is a kind and easy-going person who always picks the perfect song for each moment.

At your wedding, you will find him either playing live or spinning the DJ decks and amping up that D-floor!

He is the AV guy, the tech-wiz, and will ensure the sound, lighting, and production run perfectly on your special day.
